The Downside of Buying Pet Meds Online

Yes, there are many reputable online sites. Our goal is to encourage you to Buy Local. Hopefully we've given you good reasons to work with a local veterinarian.

Here's another reason. The "FDA has found companies that sell unapproved pet drugs and counterfeit pet products, make fraudulent claims, dispense prescription drugs without requiring a prescription, and sell expired drugs." (fda.gov)

We can trace all our products and insure the correct dosage. Nothing is mislabeled, or expired and everything is FDA approved. In most cases there is no waiting because the medications are in stock.

So, if you are thinking of buying your pet meds online, **think again about the value we offer**. We give you competitive pricing and an extraordinary level of service, with a guarantee you won't find online backed by our reputation.
